

REMARKS

Claims 1-125 are pending in the present application. Claim 1 has been amended to correct a typographical error. New claims 59-125 have been added to claim various aspects of the present invention. No new matter has been added by the new claims.

Favorable consideration and a Notice of Allowance are earnestly solicited.

Attached hereto is a marked-up version of the changes made to the claims by the current amendment. The attached page is captioned "Version with Markings to Show Changes Made".

Respectfully submitted,

VERSION WITH MARKINGS TO SHOW CHANGES MADEIn the Claims:

Claim 1 has been amended as follows:

1. A system for distribution of energy to portable hydrogen fuel cell powered devices, comprising:

- (a) at least one station including:
 - (iii) an external port coupled to an external port controller and a water supply;
 - (iv) an external port controller connected to an electricity supply grid, wherein such port controller controls the flow of electricity through the external port;
- (b) an internal port mounted on a hydrogen fuel cell powered device for receiving electricity and water to be utilized by [the] an onboard fuel plant of the device to produce hydrogen fuel;
- (c) an internal controller carried on the device for controlling aspects of the supply of electricity and water to the device; and
- (d) a connector for coupling the external port of the station to the internal port of the device for the supply of electricity and water therebetween under the control of the external port controller and/or the internal controller.
